

Stat 10, Section 2A  
Thursday, Oct 1st, 2009

David Diez

## 1 General info

Office hours are now also Tu 100-130p.

If you did not receive my email on Tuesday (Sept 29th), please email me ([david@stat.ucla.edu](mailto:david@stat.ucla.edu)).

## 2 Handout

Review the two handouts and discuss. These handouts are posted on Moodle.

## 3 Quiz problems

We discussed problems 1, 3, and 10 from the quiz earlier this week. Take special consideration in question 1 of which variable is the explanatory and which the response – this influences what you should be examining (row or column percentages/proportions).
